INAUGURAL ADDRESS

of John Shaw, *Mayor* in the year 1953

Gentlemen of the City Council:

Rochester is classified as an industrial City and in this type of City the theory is that a given amount of industry supports a given amount of families and that these families in turn produce a given amount of commercial volume. Industry, as you will notice, is the base or foundation of our municipal structure. Also in municipal taxing as in business there are heavy profit and low profit items meaning that you do not give back in cost of services to the heavy profit items as much as you give back to low profit ones. For instance, industry is called a heavy profit item and small housing a low profit one. When these two are in the right proportion in a community, that community's economy is in balance.

To me, good government is nothing but good taxation, and good taxation is taxation only to the lowest possible amount necessary for economical services.

We all know that Rochester is an especially fine community. We have many fine churches, schools and institutions and we would like to be a happy and prosperous people. It is a privilege to live here but we must so run our municipal affairs that we are not asked to pay too much for this privilege.

REPORT OF THE DEPARTMENT OF PUBLIC WORKS

To the Honorable Mayor and members of the City Council of the City of Rochester:

I submit herewith my report of the activities of the Department of Public Works for the year 1968.

A part of the first three months and again from November on, it was necessary to spend a considerable amount of time salting, sanding and removing snow.

Surface drains were cleaned by hand in the Spring and in the Fall we were able to clean them with the new machine purchased during the summer. This enables us to clean them using a two man crew.

We have patched our highways having started in March and continuing as needed until snow halted this activity.

During the Summer the following streets were paved with Hot Top; in East Rochester, Main St., Autumn St., Autumn Place, Grove St., Green St., Warren St., Pearl St., Hickey St., Abbott St., Weare St., Union St., Highland St., Pine St., School St. and Broadway were paved.

In Gonic we paved Railroad Ave., Church St. and Maple Street.

In Rochester we paved Myrtle St., Woodman St., Congress St., Granite St., Part of Liberty St., Charles St., Eastern Ave., Summer St., Dodge Ct., Glen St., May St., Upham St., Arrow St. and Allen Street.

This was done at a cost of over \$49,000.00 which is in addition to our regular surface treating of our streets. The above streets will not require additional attention for several years once they have been hot topped.

We sprayed our shade trees to combat disease and new trees were set out on Summer St., Wakefield St., Salmon Falls Rd., North Main St., Hancock St. and on Church St. in Gonic to replace trees that were removed.

Our country roads were graded regularly and dust oil was applied to keep dust to a minimum using over 7,000 gallons of oil for this purpose.

This year we completed the construction of the Estes Road under the Town Road Aid program.

Bushes have been cut in the outlying districts to improve visibility.

A new street sweeper was delivered during the latter part of the summer and increased efficiency was noted over the previous machine. Also, two new trucks were purchased for the Department replacing two ten year old trucks. A new sand spreader was purchased for winter sanding as well as backsanding after tarring.

This summer we were able to remove the parkway by Maybury Shoe. The poles were moved back to the sidewalk and the area surfaced which allowed diagonal parking on the opposite side of the street as well as improving the flow of traffic.

The England Road Bridge was repaired and we replaced bridge rails on Flat Rock Bridge and Lowell St. Bridge.

We have worked on the ditch lines of the England Road, Chestnut Hill Rd., Whitehall Rd. and Haven Hill Road to improve the flow of water.

A chain link fence has been erected across the end of the discontinued bridge at Main St. in East Rochester to keep pedestrians off the bridge as a safety measure.

Water main extensions have been completed on Rochester Hill Road, Thomas St., Riverside Drive, Cross St. and a small main was replaced on Dodge Street using 965 feet of 6" Cement Lined Cast Iron Pipe.

Two new hydrants were added making a total of 465 in the system and two hydrants were replaced. Forty four new services were installed and twenty services were relaid. Bushes were cut at the ponds and water samples were sent to the Laboratory monthly and they report the continued high quality of our water.

We have repaired 180 water meters in our shop which were removed from service. These were completely overhauled and tested before being returned to service.

Twenty five new sewer connections were installed making 3365 services.

This year we started expanding the sewer system to include a portion of the Salmon Falls Road and have already laid over 2900 feet of 10" Cement Asbestos main. In 1969 we expect to add another hundred feet to this before we make the connections to the homes.

I want to take this opportunity to thank Mayor Shaw, members of the Public Works Committee and City Council for their understanding and assistance with our problems and the employees of the Department for their faithfulness.

Working together we are striving to make Rochester a better place in which to live for future generations as well as ourselves.

Respectfully submitted,

GEORGE C. NADEAU
Commissioner

I would, at this time, like to express my sincere appreciation to His Honor the Mayor, the members of the City Council, and to the Police Commissioners for the

very fine co-operation and assistance rendered to us during the last year.

I also wish to extend my thanks to the members of the Police Department for their loyalty and devotion to duty, and the other Municipal, County, and State Departments for their interest and assistance in dealing with the problems of our organization during the year just ended.

In closing, the Rochester Police Department would like to extend its thanks to all the residents of Rochester, to the press and radio, and to all others who have worked with us during the year 1968. Such cooperation has aided immensely in the performance of our duties.

Respectfully submitted,

ERNEST J. LEVESQUE
Chief of Police

REPORT OF THE CITY SOLICITOR

To the Honorable Mayor and City Council of the City of Rochester I hereby submit my annual report as City Solicitor for 1968.

The pending suit by George and Elizabeth Michael against the City of Rochester in the Strafford County Superior Court regarding the valuation of some of the Michael real estate in Rochester was settled by the payment of taxes by said Michaels upon the sale and conveyance of their Milton Road real estate. The pending litigation by Mr. Angus MacIver against the City for valuation of his real estate on account of a taking thereof by the City for water pollution abatement purposes is still pending, and special counsel for the City is handling this matter.

The only known new litigation is a pending suit by Susan Lancey against the City for support which matter is awaiting trial in the Strafford County Superior Court.

There have been many revisions of the City of Rochester 1952 Ordinances in order to keep the City abreast of current developments. Among such amendments were a partial reorganization of several municipal committees and the new ordinance on excessive acceleration and noise created by motor vehicles which was the model initiated by us and adopted by other cities throughout New Hampshire.

The Council Referendum on Urban Renewal resulted in an overwhelming majority of Rochester's voters in each of the City's six wards rejecting the continuation of the study thereof.

As usual, all other legal matters which have arisen during the year have been disposed of without litigation.

An increasing Rochester District Court calendar resulted in the disposition of 1,448 criminal cases during the year of which 1,264 cases were misdemeanors handled by this office. In addition to the above, there were 57 new juvenile cases which required investigation and disposition. While part of this growth is attributable to the increase in volume occasioned by the District Court System which encompasses several adjoining towns, there is a substantial increase of criminal work in the Rochester District Court.

1968 saw the retirement of Leonard C. Hardwick as the Presiding Justice of our Court. Judge Hardwick has served the Court well and faithfully since 1941 when he was first named as Associate Justice. We are all the better for having had the privilege of his justice and wisdom down through the years. Associate Justice Richard F. Cooper has succeeded Judge Hardwick, and Brother Robert A. Carignan who served the City for ten years as City Solicitor succeeds Brother Cooper as Associate Justice of the Rochester District Court.

May I take this opportunity to express my appreciation to all departments for their assistance and cooperation during the past year.

Respectfully submitted,

PAUL B. URION,
City Solicitor

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

To the Honorable Mayor and City Council of the City of Rochester, New Hampshire.

Gentlemen:

I herewith submit my annual report for the year ending December 31, 1968.

There were 502 alarms in the City of Rochester in 1968, which consisted of: 142 box alarms and 360 still alarms. These include 36 car or truck fires, 23 engineer's calls (6-6), 20 brush fire calls, 21 false alarms in Rochester, 6 in East Rochester, and 4 in Gonic. There were 10 chimney fires, 49 grass fires, 13 oil burner fires, 81 property fires, 52 miscellaneous calls, 39 smoke scares or honest mistakes, 83 first aid, accident or emergency calls and 31 second alarms or calls for more help. There were 30 permanent men's calls (3) in Rochester and 3 no-school signals transmitted this year, and 1 Boy Scout signal, (444).

12 of the above calls were for out-of-town calls for assistance from Rochester. There were 32 fire calls in East Rochester and 26 fire calls in Gonic. These are all included in the above figures.

There were 417 ambulance calls in 1968. These consisted of: 61 accident calls, 261 emergency calls, 78 transfer or convalescent cases, 15 calls to which the ambulance responded but was not needed, and 2 false calls.

The total number of calls and alarms answered by the Fire Department was 919. There were 502 fire calls and 417 ambulance calls.

Below are the figures on buildings and contents involved in fires in 1968.

Estimated value of buildings	\$2,039,500.00
Insurance on same	2,027,000.00
Estimated loss	80,765.82

Total Estimated Cost	17,700
Total Estimated Cost	12,500
Total Estimated Cost	2,600
	\$2,353,875

There were 5,367 inspections made in 1968, with a total of 7,294.8 miles covered making the inspections. In the Inspection and mileage figures there were 49 inspections made on septic tanks, with 213.6 miles covered making these inspections for the Water Supply & Pollution Control Commission of the State of New Hampshire. 1968 was the second highest construction year since the establishment of the Building Inspection Department. 1967 was the largest by a little over 100,000. The extremely wet spring and cold snowy December are the reasons that 1968 did not top 1967 for the biggest year yet.

Respectfully submitted,
STEPHEN J. SLEEPER
Building Inspector

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rochester:

I submit my sixth report as Superintendent of Schools of Union No. 54. The following list indicates the administrative activities for the period from January 1, 1968 to December 31, 1968:

School Visits	300
Regular School Board Meetings	12
Special School Board Meetings	1
School Board Committee Meetings	31
Joint Building Committee Meetings	8
Teachers' Meetings	6
Speaking Engagements	4
Conventions and Conferences	6

Education steadfastly moves forward in the City of Rochester with the completion of the new open-ended school in East Rochester. A three week workshop held last August with the principal and staff was a good preparation for the successful operation of this new school.

The Title I program was one of the 150 outstanding programs in the United States and was selected by the evaluation committee from Washington, D. C.

The Vocational Rehabilitation program for the mentally retarded, physically handicapped and emotionally disturbed child completed a very successful year and will continue in operation for the next year. This program is co-sponsored by the Federal Government and the State of New Hampshire.

The AREA School project was completed and approved by the City of Rochester and the State Board of Education, to become effective in July 1970. It is therefore imperative that the City of Rochester diligently work on its obligation to provide the secondary facilities to accommodate children in grades seven through twelve from the surrounding areas of Strafford, Wakefield and Barrington.

The crowded conditions at the Junior High School has made it necessary to eliminate shop and home economics in grade seven.

I wish to extend to the School Board, and the City Council my sincere appreciation for their fine cooperation and the many long hours that they devoted to the task of carrying through their responsibilities with foresight and conviction in what is good for the children, school personnel and citizens of their community.

The PTA organizations have been most helpful, as have the numerous civic and social organizations, the fire department, police department and highway department, also the cooperation of the Rochester Courier, The Foster's Daily Democrat, Manchester Union Leader and radio stations WWNH and WTSN.

I wish to commend all school personnel for their cooperation, devotion to education and the assistance they have given me.

Respectfully submitted,

ALFRED W. THOMAS
Superintendent of Schools

ACCOUNTANT'S REPORT

To the Honorable Mayor and City Council:

Gentlemen:

In accordance with the provisions of the City Ordinances, I have examined the financial accounts of the City of Rochester and the results of the budget operations for the year ended December 31, 1968.

It is my opinion that the accompanying financial statements (Exhibits I thru VI) represent fairly the financial condition of the City of Rochester on December 31, 1968, together with the results of operations for the year ended on that date.

Respectfully submitted,

FREDERICK M. STEADMAN
City Accountant
